HARDY HERBACEOUS PERENNIALS

COLLECTED BY

MID-WEST PERENNIAL COLLECTORS

STANFORD, ILLINOIS

GEO. A. MARTIN, Proprietor

WHOLESALE PRICE LIST—FOR DEALERS ONLY

All plants collected by us are guaranteed true to name. Collected, graded and packed by experienced collector, grader and packer.

The prices we have made are as low as we think should be to be consistent with safe business.

Please state how we shall send items. Most items go by express. Small lots are sometimes cheaper by parcel post. Very heavy lots are cheaper by freight, but if weather is very hot, freight is not safe. In event no instructions are sent we use our best judgment but assume no risk.

Large orders are sent shipping charges C.O.D. Parcel post packages are sent C.O.D.

We advise delaying shipment on plants until ripened, however, if they may be shipped in the growing or blooming stage, where tops must be crated, a small additional charge must be added. This means that mixed orders are usually sent in several installments as they mature. If this is not satisfactory we can usually store earlier ripened stock until others are ready, if requested.

Sudden and severe hot spells, drouths, freezes or floods make some plants entirely disappear, therefore failures are not always the collectors fault.

TERMS

2% Discount for Cash

All orders sent C. O. D. unless otherwise agreed upon. Responsible parties will be given credit of thirty (30) days from date of shipment.

If only one item is wanted, we do not care to sell less than 250 at these prices. Most items may be had in one thousand lots, many in five thousand lots and some in fifty and one hundred thousand lots.

Let us know your needs, and we will quote you promptly.
